

SAFETY TABLE.

No ammunition at safety table.

From vehicle, transport empty gun in some sort of container, such as a zipper bag, to this table to transfer from bag to holster. Do not un-holster your gun anywhere else besides a safety table or until it is your turn on the firing line and instructed to do so.

If you come to the range loaded (concealed carry) you must find match director and go together to pistol pit to be unloaded (not here at safety table)
