No mild steel targets allowed to be left unattended on any range. Lock up or take home mild steel.
7. Ground level targets are only allowed with a proper backstop. This will reduce the possibility of ricochets and projectiles escaping the safety fan. Members are responsible for bringing their own target frames for paper targets. To avoid cutting the cable, hang targets such that bullet passes several feet below the cable.
9. Before anyone is allowed to go downrange, unload, open action, remove magazine, ground and/or bench all firearms during a ceasefire. Use the buddy system on the 500 yard range. 12. Hanging steel targets in the pistol ranges are reserved for pistol caliber to minimize creating pits, craters and holes. Stay back 10 yards or more with pistol to reduce risk of being hit by fragments. DO NOT shoot the frames holding the hanging steel. He/she should not bear the additional burden of picking up after others.
